SENATE BILL

No. 362

Introduced by Senator Torlakson

February 17, 2005

An act to ~~amend Section 17071.30 of, and to add Section 17071.31 to;~~ the Education Code, relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

SB 362, as amended, Torlakson. School facilities: existing school building capacity.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

Existing law provides that eligibility for funding under these provisions is, in part, determined by calculating the existing school building capacity of a school district, and provides that the number of portable classrooms that exceed 25% of the permanent classrooms, reduced by the number of portable classrooms used as interim housing for modernization projects, are excluded from that capacity.

~~This bill would, instead, include portable classrooms used as interim housing for modernization projects in that calculation.~~

The

This bill would provide that if the State Allocation Board requires a school district to reestablish its existing school building capacity after the *school* district has determined the existing school building capacity, the State Allocation Board is required to exclude certain portable classrooms from that calculation, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 ~~SECTION 1. Section 17071.30 of the Education Code is~~
